Communicate professionally & persuasively.
Understand how interpersonal skills impact success.
Understand how 21st century skills impact success.
Build a collaborative work environment.
Develop personal leadership.
Effectively handle difficult situation.

SCOPE

Atharva College is interested in launching a special initiative to help build the education quality and delivery abilities within the faculty community. Atharva College along with Dale Carnegie/Walchand Plus wants to design and implement a special Trainer Capacity Building Course for faculties & overall development program for Students.

Importance of Faculty Development

Professional development is an integral part of becoming more effective in a classroom. It promotes faculty responsibility for continuous, career-long growth of a student. It makes teaching professionals aware of what they do, asks them why, and challenges them to improve the academic experience of students. The institute endeavours towards creating young & dynamic teachers who will shape the future generations. Faculty is directly responsible for creating an engaging classroom and inculcates eager want for learning within the students. This can only happen in turn if the teacher is self-motivated and committed to the greater cause of creating the future potentials of students. There is need to improve their quality of content delivery, knowledge sharing, and effectiveness of learning, and presentation skills. Faculty members need to shift their mental mind-set and realize that they have the onus of being role model, guide, counsellor and a coach for the learner. They are responsible not just to delivering knowledge but also to impact long term student's retention, classroom dynamics as well motivation.

Attendance Record

Atharva College of Hotel Management & Catering Technology (ACHMCT)

21st Century Faculty Development Program
Training dates : 04th, 05th & 06th Sep 2019
